

PRESS RELEASE - January 2010

STRIKERS SOCCER CENTER of Huntersville NC, is delighted to announce an agreement with **EVERTON FOOTBALL CLUB** of the English Barclays Premier League (current home of USA international players Landon Donovan and Tim Howard). This will give local players and coaches an opportunity to learn from the highest possible soccer level.

Camps will be held this summer staffed by Everton Professional Academy coaches.

The weeks starting June 14th and June 21st have been selected. Full details will be available soon on our website: www.strikerssoccer.com .

Coaches and players will be able to visit the UK and the training complex at Everton plus attend Premier League games. Young players will be able to earn the ultimate dream of playing soccer at the top level possible. Access to the educational soccer program devised and operated by Everton for their young Pro players will be available on line.

Strikers has come a long way in the ten years since we opened. In addition to the program at the Center, we have a partnership with FCCA for the more advanced players. This has been amazingly successful. Full credit must go to our coaches and players for all the on field success that has been achieved in top level tournaments. At one recent tournament in Greenville, SC, the teams won seven championships!!! Now we are going to yet another level. By working with Everton Football Club the highest possible level in soccer is accessible for our kids and coaches.

The dream of seeing a local kid playing in the Barclays English Premier League is a step nearer to realization.....Andrew Steedman, Strikers.

Tosh Farrell Head of **EVERTON** international football development said this is an exciting time not only for Strikers soccer but Everton Football Club. This affiliation between us and the already very successful program Strikers has established, will allow players even further opportunities to fully maximize their potential
